

Functional Requirements

1. User Registration and Authentication:

Allow users to create accounts and provide necessary information.
Implement a secure authentication mechanism to verify user identity.

2. Appointment Management:

Enable users to schedule appointments with available service providers or resources.

Allow users to view, edit, and cancel their appointments.

Handle conflicts or overlapping appointments to prevent double bookings.

Send notifications to users regarding appointment confirmations, reminders, or changes.

3. Service Provider Management:

Provide functionality for service providers to set their availability, working hours, and appointment durations.

Allow service providers to manage their appointments, view their schedule, and make adjustments as needed.

Enable service providers to block off specific time slots or mark themselves as unavailable.

4. Calendar Integration:

Integrate with popular calendar applications (e.g., Google Calendar, Outlook) to synchronize appointments and avoid conflicts.

Provide the option to export or import appointments from/to external calendars.

5. Search and Filtering:

Enable users to search for available service providers or resources based on criteria such as location, specialization, or availability.

Implement filters and sorting options to help users narrow down their search results.

6. User Roles and Permissions:

Define different user roles (e.g., admin, service provider, client) with specific permissions and access levels.

Restrict certain actions or features based on user roles to maintain data privacy and security.

7. Reporting and Analytics:

Generate reports and statistics on appointment history, service utilization, or user behavior.

Provide insights to administrators or service providers to optimize scheduling processes and resource allocation.

Multiple Services

Healthcare Providers: Doctors, dentists, therapists, specialists, clinics, hospitals, or medical centers offering different medical services.

Beauty and Wellness: Hair stylists, barbers, spas, massage therapists, aestheticians, nail salons, or wellness centers.
